INTERNATIONAL Water Power & Dam Construction

INDEX 1976

VOLUME TWENTY-EIGHT

January to December 1976

INDEX

INDEX

* Denotes an illustrated article

† Denotes an abstract

§ Denotes a news item

The months of issues are denoted by Roman figures

A

Afghanistan—
News in brief .. .. .. IV 41§
VII 9§

Africa—
Bandama development, Ivory Coast .. .. IV 7§
Cabora Bassa, power from .. VI 3§
Cameroons, Song-Loulou project prequalification invitations .. III 5§
Dam construction in South Africa V 5§
Ghana, Kpong, tenders for .. III 5§
Mazaruni project, Guyana .. VIII 5§
News in brief .. .. .. IV 41§
Shiroro project plans .. .. IX 5§
Steenbras pumped-storage scheme .. .. IV 3§
X 3§
Transkei hydro scheme investigations .. .. .. V 5§
Transvaal water control scheme IV 7§
Tugela multi-purpose development—Robbroeck and Graber III 43*
Air entrainment in water—Ervine.. XII 27*
Argentina—
News in brief .. .. .. III 7§
Salto Grande loan .. .. XII 11§
Arnon dam foundation problems III 26*
Asian Development Bank loans .. X 5§
Atlas Copco progress .. .. VIII 5§
Australia—
Julius dam—McIntyre .. .. I 25*
Snowy Mountains Corporation recession .. .. .. II 6§
Snowy Mountains scheme complete .. .. V 3§
Thomson river water supply project .. .. VIII 9§
Tidal power .. .. .. I 3§
IV 77†
X 46†
Wivenhoe hydro project, Queensland .. .. II 6§
Austria—
Altenworth, Sixth Danube hydrostation .. .. I 42*
Electricity Industry .. .. IV 76†
Ferlach-Maria Rain development III 51†

B

Blankets on the sea bed .. .. X 59†
Bolivia, loan for .. .. .. VIII 7§
Brazil—
Dam construction, prominence in II 5§
V 3§
Hydropower resources .. .. X 54†
Itaipu may be delayed .. .. XII 5§
Itaipu project .. .. .. VII 42†
News in brief .. .. .. III 7§
IV 41§
Power industry healthy position XI 3§
Salto Osorio project .. .. V 5§
Southern Brazil developments .. V 58†
Taiaçupeba dam—Souto Silveira, Pinca and Eigenheer .. .. IV 64*
Tucurui project, turbines .. VII 7§
Turbines for Itumbiara and Paulo Alfonso ordered .. .. III 3§

C

Canada—
BC Hydro loss .. .. .. II 3§
X 5§
BC secrecy attacked .. .. III 3§
Canadian power sales to USA .. IV 7§
Churchill river scheme doubts .. I 5§
Churchill river development feasible .. .. IX 3§
Coal favoured as energy source VIII 9§
Deer Lake modernization—Farag .. .. II 19*
Flood prevention on Fraser river X 5§
Hydro Quebec plans .. .. X 3§
Hydro Quebec power for St. Lawrence Island .. .. IV 5§
James Bay development .. XII 50§
James Bay needed .. .. I 3§
James Bay settlement .. .. II 6§
Kootenay comes on line .. II 3§
La Grande developments .. IV 77§
La Grande project, Quebec—Amyot, Laliberté, Larocque .. VII 27*
VIII 17*
La Grande scheme takes shape.. XII 5§
Limestone station, Manitoba, construction starts .. .. IX 5§
Long Spruce dam ahead of schedule .. .. .. IV 5§
Lower Churchill project to proceed .. .. III 3§
Manic 3 and James Bay delays.. V 5§
Manic 3 commissioned .. .. VII 7§
Manic 3 dam cut-off .. .. X 54†
Manic 3 first turbine operational III 7§
Manitoba–Nebraska HVDC link studied .. .. XI 5§
Newfoundland hydro, aid for .. II 5§
News in brief .. .. .. IV 41§
X 7§
Ontario flood control programme IV 41§
Ontario Hydro equipment orders XII 11§
Ontario Hydro reduced income.. VI 3§
Peace river, Hudson Hope plant to be built .. .. .. V 5§
Peace river recreational aspects.. IV 3§
Revelstoke, Columbia river, licence applied for .. .. VII 9§
Salmon, risk to, on Fraser river XII 7§
Seven Mile scheme progress .. I 3§
VIII 5§
Seven Mile study .. .. VII 5§
Transmission line, experimental, Hydro-Quebec.. .. .. XII 3§

Canals *see* Channels
Cavitation—
Aggressive waters, cavitation damage in .. .. II 50†
Bratsk station, USSR, cavitation damage.. .. .. .. III 50†
Cement mortar erosion .. .. III 51†
Harmful cavitation effects .. VIII 60†
Metals, resistance under load .. IV 77†
Models, cavitation tests on .. I 53†
New Zealand stations fight cavitation .. .. I 5§

Channels—
Godavary South canal, India, automated machinery.. .. III 35*
Spillway design, side channel .. II 50†
China—
News in brief .. .. .. VII 9§
China's hydro potential—Smil.. III 19*
Colombia—
Del Monte sluice gate failure .. XI 3§
Punchiná spillway, design of—Villégas.. .. .. .. XI 32*
Computers—
Rhône powerplants automated, France .. .. VII 36*

Concrete—
Concrete testers .. .. .. VII 44
Frost-resistant concrete .. .. III 53†
Grout plant .. .. .. IV 82
Grouting admixtures .. .. IV 82
Grouting of tendons in stressed concrete .. .. .. IV 76†
Gunned concrete .. .. III 50†
Light-weight concretes for hydraulic structures .. .. VII 42†
Loading, critical dynamic, of concrete .. .. .. IX 51†
Natural look for concrete .. XI 49
Renovation of concrete .. .. IX 56
Shotcrete conference, Maryland IX 5§
Taper tie-bar system .. .. IX 56
Tremie concrete techniques .. I 21*
Conferences—
Brazilian Seminar on large dams XI 5§
Design and operation of pumps and turbines, international conference, Glasgow .. .. X 49*
ICOLD XII Congress .. .. III 3§
III 17
IV 42
V 22
VI 22
ICOLD XIII Congress in India.. V 21
Inspection, operation and maintenance of existing dams .. I 39
Shotcrete conference, Maryland IX 5§
Underground works in urban areas conference, Paris .. X 3§
Construction Equipment—
Clamshell for Caterpillar excavators .. .. III 55
Cranes, crawler .. .. .. XI 50*
Crawler crane/dragline .. .. XI 52*
Draglines, walking .. .. V 60
Earth moving by vibration .. V 56
Excavator, giant back-hoe .. VIII 62
Fork-lift trucks, four-wheel drive XII 52*
Slipform, concrete .. .. XI 50*
Trench backfilling machine .. IV 82
Vibratory compactors .. .. XI 50*
Corrosion—
On site corrosion prevention service .. .. VII 44
Pipe corrosion survey .. .. I 3§
Prevention of corrosion.. .. V 3§
Surface protection for steel and concrete .. .. .. IX 50*
Costa Rica—
News in brief .. .. .. III 7§

D

Dams, concrete—
- Arch dam, evolution of the—Schnitter .. .. .. X 34*, XI 19*
- Arch dam, Nambe Falls, first prestressed in USA—Legas .. II 21*
- Arch dams, foundation drainage of—Gallico .. .. .. IV 54*
- Arnon dam foundation problems—Durand, Louis and Masure .. .. III 26*
- Aseismic design of concrete dams—Severn .. .. .. I 37*, II 41*
- Bhakra dam, preventing seepage through—Singhota and Sachdeva .. .. X 26*
- Bhandardara dam, India, leakage investigations—Murthy, Reddi and Rao .. .. .. IX 43*
- Concreting in sub-zero temperatures .. .. IV 76†
- Cracks, thermal induced .. IV 72*
- Crystal dam, Upper Colorado river .. .. II 27*
- Dworshak dam design .. .. II 49†
- Idikki, India's first arch dam .. IX 51
- Julius dam, Australia—McIntyre I 25*
- Pacoima dam, IECO award for repairs .. .. III 7§
- Polymer concrete for dam repair I 5§
- Pueblo dam, USA .. .. III 50†
- Rock anchors for Milton Lake dam—Friedrich .. .. II 29*
- Santa Anita dam, stability study VIII 3§
- Stilling basin design .. .. III 53†

Dams, Embankment—
- Acoustic emission monitoring of earth dam stability—Koerner and Lord IV 45*
- Ardingly dam, England, tender .. VII 7§
- Ardon dam .. .. .. V 60†
- Ban Chao Nen dam .. .. IX 7§
- Beas dam, India, construction .. III 51†
- Bewl Bridge dam—Eden and Titford .. .. IV 50*
- Bolan dam failure, Pakistan .. X 3§
- Bouldin dam failure, USA .. VII 3§
- Chicoasen dam, Mexico .. V 5§, X 54†
- Core material behaviour .. VIII 59†
- Daggs dam, Arizona, failure and reconstruction of—Scott .. II 33*
- Earth dam with steel core .. VIII 59†
- Gathright dam foundation treatment—Bowman and Anderson VI 38*
- Grimwith dam, Yorkshire, to be enlarged .. .. .. IX 5§
- Kielder dam contract .. .. IV 41§
- Lower Lliw reservoir dam contract, Wales .. .. .. X 7§
- Manic 3 dam cut-off .. .. X 54†
- Moose Creek dam, Alaska, USA VIII 9§
- Optima dam, Beaver river .. II 25*
- Pantabangen dam, Philippines .. V 33*
- Ropptjern dam, Norway, failure of .. .. VII 3§
- Seal, self repairing .. .. IV 79
- Sedawgyi dam multi-purpose project, Burma .. .. IX 5§
- Seismic effects on embankment dams .. .. XI 47†
- Sliding, remedial measures to prevent .. .. I 53†
- Taiaçupeba dam, Brazil—Souto Silveira, Pinca and Eigenheer IV 64*
- Tailings dam, Pennsylvania .. VIII 7§
- Tarbela, cavitation question .. VIII 3§
- Tarbela cavity .. .. .. XI 3§
- Tarbela gets needled .. .. XII 3§
- Tarbela go-ahead .. .. IX 3§
- Tarbela, more trouble at .. VI 3§
- Tarbela, tremie concrete techniques .. .. I 21*
- Temengor dam, Malaysia .. IV 59*
- Terzaghi's inverted filter .. VII 42†
- Teton dam, Idaho, USA, failure of .. .. VII 3§, VIII 3§, IX 3§
- Transvaal water control dam .. IV 7§
- Zeya plant, dam construction for II 50†

Dams, General—
- Bering Strait could alter climate III 49†
- Brazilian Seminar on Large Dams .. .. XI 5§
- Brazil's prominence in dam construction .. .. .. II 5§, V 3§
- *Consulting Engineer* dam issue .. V 56†
- Dams in USA .. .. .. VII 40†
- Danhim dam, Vietnam, to be checked .. .. .. IX 7§
- Failures, classification of—Johnson and Illes .. .. .. XII 43*
- Failures, dam .. .. .. VII 13
- Foundation seepage, calculating II 49†
- Geology, effect of on design of two Welsh dams—Cochrane and Anderson .. .. .. V 44*
- Gobindsagar dam, operation of II 49†
- Greece, large dams in .. .. XII 13
- Green fingers could help dam designers .. .. .. XI 48
- ICOLD XII Congress .. .. III 3§, 17, IV 42, V 22, VI 22
- ICOLD XIII Congress in India .. V 21
- Inflatable dams for variable control .. .. III 49
- Inspection, operation and maintenance of existing dams .. I 39
- International activity in dam construction—Mermel .. IV 66
- Kadana dam, foundation problems .. .. VI 52†
- Locks, replacing with water-slopes .. .. IV 80
- Magarin dam, Jordan valley .. VII 5§
- North America, dam building trends in—Mermel .. .. II 17
- Ogohchi dam, Japan, excavation for second intake .. .. XI 47†
- Permafrost, dams in .. .. I 53†
- Rhine dam needed to prevent erosion .. .. III 50†
- Safety, evaluation of .. .. XII 46*
- South African dam construction V 5§
- Seepage prevention by freezing .. VI 52†
- Siphon spillway for river flood control .. .. III 53†
- Spillway channel, Vilguisk .. V 58†
- Spillway, Punchiná, design of—Villegas .. .. XI 32*
- Spillway walls, hydrodynamic design of .. .. .. II 49†
- Takase river dams, Japan—Mimura .. .. .. VIII 35*
- Uplift pressure under dam aprons IV 77†
- US dams, safety of .. .. XI 47†
- USCOLD annual meeting .. III 5§

Debris, floating, transport of—Bisaz, Taubmann and Fischer .. XI 41*
Dinorwic, Europe's largest pumped-storage scheme .. .. .. III 30*
Drainage system .. .. .. VIII 59†

Drilling—
- Button bits .. .. .. II 51
- Compressors, portable, rotary screw .. .. II 51
- Drill for foam-flush technique .. IV 84
- Jumbo, air powered .. .. VI 54
- Rock drill, hydraulic .. .. VI 54

E

Earthquakes—
- Analyses, earthquake .. .. IX 51†
- Artificial earthquakes .. .. II 50†
- Concrete dams, aseismic design of—Severn .. .. .. I 37*, II 41*
- Controlling earthquakes .. VI 51
- Embankment dams, seismic effects on .. .. .. XI 47†
- Forecasting earthquakes, Chinese method .. .. III 49
- Prediction of earthquakes .. IX 21
- Satellite for earthquake prediction .. .. IX 7§
- Seismic field recorder .. .. I 54

Electrical Apparatus—
- Cable link, North–South Island, New Zealand .. .. .. XII 3§
- Ffestiniog stator rewound—Wales .. .. VII 5§
- French electricity supply drops .. VIII 5§
- Frequency convertors for pumped storage starting .. .. VIII 48*
- Generator stresses in hydro powerplants—Nigam, Jain and Kanchi .. .. I 44*
- Generators, hydrogen cooled, safety of .. .. .. VI 52†
- Generators, large, tests on, Elektrosila, Leningrad .. X 5§
- HVDC comes of age .. .. X 60
- HVDC link, Manitoba–Nebraska, studied .. .. XI 5§
- Transformers, test .. .. II 52
- Transmission line, experimental, Hydro-Quebec .. .. .. XII 3§

England—
- Ardingly dam tender .. .. VII 7§
- Bewel Bridge dam—Eden and Titford .. .. IV 50*
- Grimwith dam, Yorkshire, to be enlarged .. .. .. IX 5§
- Kielder dam contract .. .. IV 41§

Environment—
- Dickey-Lincoln under review .. VI 3§
- Hydropower and the environment—Biswas .. .. .. V 40
- Seven Mile project—Canada .. VII 5§
- Water power and the environment .. .. V 58†

Ecuador—
- News in brief .. .. .. III 7§

Epoxy system, underwater flexible .. .. X 56†

F

Flood run-off, urban .. .. IV 76†
Floods: control and models .. XI 46†
Fluids Courses, BHRA .. .. VIII 60

France—
- Arc-Isère tunnel route .. .. I 53†
- Arnon dam foundation problems—Durand, Louis and Masure .. .. III 26*
- Drought saps hydropower .. XI 5§
- Electricity supply drops .. .. VIII 5§
- La Coche pump-turbine tested .. VII 5§
- News in brief .. .. .. IV 41§, VII 9§
- Rance station, ten years .. XII 55*
- Rhine, 30 years development—Lefoulon .. .. .. V 48*, VI 45*
- Rhône basin development .. I 53†
- Rhône powerplants .. .. VII 36*

G

Gas turbine and pumped-storage combination .. .. .. III 50†

Gates and Valves—
- BHRA research .. .. .. VII 38
- Big-valve actuator .. .. XI 52*
- Control valve, high capacity, low pressure .. .. .. IV 82
- Deer Lake modernization using relief valves—Farag .. .. II 19*
- Floating gate for spillway shaft .. V 58†
- Flow control valve .. .. IX 56
- Pneumatic/hydraulic actuators .. III 55
- Pressure transients at valves and bifurcations—Ellis and Tint .. VIII 24*

Take-off valve .. .. .. X 58
Valves for Anglian Water Authority .. .. V 60
Germany, Rhine dam needed to reduce erosion .. .. .. III 50†

Geology, Rock Mechanics and Soil Mechanics—
Geology, effect of, on design of two Welsh dams—Cochrane and Anderson .. .. .. V 44*
Rock slopes, stability analyses of —Kalkani .. .. .. IX 47*
Red bole beds .. .. .. VIII 60†
Ground water *see* Hydrology, regulation and storage
Greece, large dams in .. .. XII 13
Guatemala, Chixoy plant .. IV 5§

H

Honduras, News in brief .. .. III 7§
Hose reels .. .. X 56*
Hungary, News in brief .. .. X 7§
HVDC *see* Electrical Apparatus
Hyacinth, water, experiments .. IX 3§

Hydraulics—
Colebrook formula simplified .. VII 42†
Colebrook-White function, solution procedures for—Barr .. XII 31*
Hydraulic jumps, forced, drag on a baffle block under—Hari .. XI 28*
Orifice and nozzle flow calculator II 51
Venturi flumes, trapezoidal, design method—Diskin .. XII 21*

Hydrology, Regulation and Storage—
French drought saps hydropower .. .. XI 5§
Ground water conditions, predicting .. .. II 49†
Hyacinth, water, experiments .. IX 3§
Red bole beds .. .. .. VIII 60†
Reservoir control mathematical models for .. .. .. VII 40†
Reservoir sizing, systems analysis —Buning and Sbihi .. .. X 21*
Reservoir, utilising for optimum benefits—Hoon .. .. IX 39*
Sediment in reservoirs .. .. VIII 59†
Storage effects on flood flows .. VI 52†
Swiss reservoir shortfall.. .. XI 3§
Tracers, use of, in hydrology .. XII 50†
Weather forecasting, long range —Bowen .. .. .. VII 31*

I

India—
Beas dam construction .. .. III 51†
Bhakra dam, preventing seepage through—Singhota and Sachdeva .. .. X 26*
Bhandardara dam leakage investigations—Murthy, Reddi and Rao .. .. .. IX 43*
Floods, highest recorded .. X 54†
Gobindsagar dam, operation of II 49†
Godavary South canal, automated machinery .. .. III 35*
Hydropower in India—Datta .. VII 14*
Idikki, India's first arch dam .. IX 51†
Idikki, first power .. .. IV 7§
Kadana dam, foundation problem .. .. VI 52†
Ramganga project, spillway gate V 58†
Tidal power prospects .. .. V 56†
Yamuna, Stage II .. .. VII 40†
Indonesia, Asahan project.. .. IV 3§

Instruments and Meters—
Borehole Seal for piezometers .. III 55
Cassette data logger .. .. VII 44
Collimator, automatic .. .. I 54
Flatness and alignment checking X 58*
Linear-to-flow potentiometer .. X 58
Liquid-level instrument .. .. X 59
Network analysers, fluid .. XI 50
Rock load tester .. .. .. VI 54
Seismic field recorder .. .. I 54
Strain gauges and sensors, weldable .. .. IV 82
Time recorder, 28 day .. .. VIII 62
Investments in international contracts, protecting—Newmark .. XI 35
Iran, pumped-storage schemes? .. XI 5§
Iraq, Mosul project, Japanese bid IX 7§
Irrigation project, Jordan Valley .. VII 5§

J

Japan
Ogohchi dam, excavation for second intake .. .. .. XI 47†
Takase river dams—Mimura .. VIII 35*
Java hydro to expand .. .. V 3§

K

Kaplan *see* Turbines
Kidatu powerplant, Tanzania—Reinius and Steby .. .. XI 23
Korea—
Andong station on line .. .. X 7§
Chongpyong pumped-storage plant .. .. X 3§
Korea, South, News in brief .. VII 9§

L

Laos—
Nam Ngum phase II finance .. VI 5§
News in brief .. .. .. IV 41§
VII 9§
Latin American loans .. .. VIII 9§
Leak-detection submarine .. .. VI 51
Linings, waterproof, membrane systems .. .. III 55
Lithuania, News in brief .. .. IV 41§
Locks *see* Dams

M

Malaysia—
News in brief .. .. .. III 7§
X 7§
Power supply expansion .. XII 11§
Sungei Pergau and Kenering schemes to be built .. .. IX 5§
Temengor project .. .. IV 59*
Temengor project threatened by terrorists .. .. .. III 3§
Mekong, Mainstream development gets priority .. .. .. I 5§
Mexico—
Chicoasen dam construction .. V 5§
Chicoasen dam .. .. .. X 54†
La Paz embankment failure .. XI 3§
Models, hydraulic, scaling problems—Kinori and Nir .. XII 38*

N

New Guinea *see* Papua/New Guinea
New Zealand—
Cable link, North–South Island XII 3§
Cavitation repairs in New Zealand stations .. .. .. I 5§
More hydro from smaller plants XII 7§
New projects planned .. .. XI 5§
News in brief .. .. .. X 7§
Wave power study .. .. VIII 58
Noise studies, hydraulic .. .. VI 51
Norway—
Power prospects .. .. .. V 3§
Ropptjern dam failure .. .. VII 3§

P

Pakistan—
Bolan dam failure .. .. X 3§
Tarbela, cavitation question .. VIII 3§
Tarbela cavity .. .. .. XI 3§
Tarbela gets needled .. .. XII 3§
Tarbela go-ahead .. .. IX 3§
Tarbela, more trouble .. .. VI 3§
Tarbela, tremie concrete techniques .. .. I 21*

Panama—
La Estrella and Los Valles plants, Swedish built .. .. .. IX 7§
Swedish electrical orders for Panama .. .. .. II 3§
Papua/New Guinea—
Purari project doubts .. .. XII 13§
Purari river study .. .. V 3§
Paraguay—
Itaipu may be delayed .. .. XII 5§
Itaipu project .. .. .. VII 42†
Penstocks and pipes—
Coupling fittings .. .. .. V 60
Glass fibre pipe to drain embankment .. .. VIII 51*
Penstock requirements, French.. XI 49*
Pipe corrosion survey .. .. I 3§
Pipe jointing technique .. .. X 60*
Pipes and vessels, range extended II 52
Pressure transients at valves and bifurcations, simulation of—Ellis and Tint .. .. .. VIII 24*
Peru—
Canon del Pato station uprated IV 7§
Machu-Picchu plant expansion.. VIII 3§
Pelton wheels for .. .. VI 5§
River flow model .. .. IV 77†
Philippines—
Geothermal projects .. .. IV 5§
News in brief .. .. .. III 7§
VII 9§
Pantabangam dam .. .. V 33*
Portugal, Mixed power in .. .. X 5§
Power station, construction planning of .. .. III 53†
Pumps and Pumped-Storage—
Bajina Basta project, Yugoslavia VII 42†
Borehole pump .. .. .. XII 52*
Centrifugal pumps .. .. VI 54
Design and operation of pumps and turbines international conference, Glasgow .. .. X 49*
Development in pumped-storage III 17
Dinorwic contracts placed .. I 3§
Dinorwic, Europe's largest pumped-storage scheme .. III 30*
Ffestiniog stators rewound, Wales VII 5§
Frequency converters for pumped-storage starting .. .. VIII 48*
Gas turbines and pumped-storage combination .. .. .. III 50†
Glade Run pumped-storage plant, West Virginia, Recommended.. .. .. .. IX 7§
Grimsel II, 2-stage pumped-storage development .. .. III 38*
Helms Creek pumped-storage project, USA .. .. .. VIII 7§
High-head pumped-storage plants —Jog .. .. V 35*
High-pressure pumps .. .. VI 54
Iran, pumped-storage scheme for? .. .. XI 5§
Juktân pumped-storage schemes —Sweden .. .. .. VII 40†
Korea, Chongpyong pumped-storage plant .. .. .. X 3§
La Coche, first pump-turbine tested, France .. .. .. VII 5§
Low-priced pumps .. .. X 58*
Pump-turbine rotors, large, dynamic behaviour of—Barp I 48*
Pump-turbines, reversible, problems of .. .. VII 40†
Pump-turbines, starting techniques for .. .. .. II 50†
Randolf project, USA .. .. VII 9§
Smith Mountain, USA, third unit IV 7§
Steenbras pumped-storage scheme, S. Africa .. .. IV 3§
X 3§
Thermal power and pumped-storage, combining—Chandrakis .. .. X 41*
Vouglans pump-turbine.. .. III 51†
Water powered pump .. .. IV 79
Water qualities, isothermal factor for—Alming and Overli .. VIII 52*

R

Rain and rainmaking *see* Hydrology, Regulation and Storage — VII
Research—
BHRA research .. .. .. VII 38
Hydraulics Research Station, Wallingford, activities .. IX 52*
Imperial College, London, studies .. .. V 55
Reservoirs *see* Hydrology, Regulation and Storage

Resources and Development—
Brazil's hydropower resources .. X 54†
China's hydro potential .. .. III 19*
Hydro resources in 2000 .. V 3§
Investments in water resources .. VI 52†
Norwegian power prospects .. V 3§
Rock anchors, carrying capacity of .. .. XI 46†
Rock excavation underwater .. VII 42†
Route markers .. .. .. VIII 62

S

Salmon, risk to, on Fraser river .. XII 7*
Scotland, Foyers pumped-storage starting .. .. VIII 48*
Sediment in reservoirs .. .. VIII 59†
Siphon, air, for overflow control .. VIII 58
Solar energy and hydropower .. V 54
Solomon Islands, ADB assistance .. XII 13§
Spillways *see* Channels *and* Dams
Stilling basins *see* Dams
Struts, load in .. .. .. XII 55†
Sumatra, Maninjau project .. VII 7§
Surges and Surge Chambers—
Computer analysis of water hammer .. .. .. V 55
Multiple and single surge tank characteristics—Singamsetti and Kashyap .. .. .. VIII 43*
Pressure transients at valves and bifurcations, simulation of—Ellis and Tint .. .. .. VIII 24*
Spilling surge tanks, analysis of—Gill .. .. X 31*
Surge tank analysis: a graphical solution—Li .. .. .. V 28*
VI 42*

Sweden—
Juktån pumped-storage scheme .. VII 40†
Small hydro stations .. .. VI 5§

Switzerland—
Arc-Isère tunnel route .. .. I 53†
Ardon earth dam .. .. V 60†
Electricity statistics .. .. XI 47†
Grimsel II, 2-stage pumped-storage development .. .. III 38*
Reservoir shortfall .. .. XI 3§

T

Taiwan—
Hydropower plans .. .. IV 76†
Tienlung and Mukwa plants progressing .. .. .. IX 5§
Tanzania, Kidatu powerplant—Reinius and Steby .. .. XI 22*
Tarbela *see* Pakistan
Thailand, Ban Chao Nen project .. IX 7§
Thermal power and pumped-storage, combining—Chandrakis .. X 41*
Thunderstorm forecasting .. .. IV 80
Tidal Power—
Australian tidal power survey .. I 3§
IV 77†
XI 46†
Cambay Gulf .. .. .. V 54
Fundy Bay tides .. .. .. XII 56
Indian prospects .. .. .. V 56†
Rance station, ten years .. XII 55*
Severn barrage scheme rejected .. I 3§
Tidal Power—closing the gap—Shaw .. .. V 24*
Time and tide wait for no man .. XII 15
Transformers *see* Electrical Apparatus
Tugela multi-purpose development—Robbroeck and Graber .. III 43*

Tunnels—
Arc-Isère tunnel route .. .. I 53†
Dry ground leakage .. .. III 53†
Guidance system for .. .. II 51
Horseshoe section tunnels, flow in—Peruginelli .. .. VII 20*
Prestressing a power tunnel—Seeber .. .. IV 69*
Tunnelling techniques .. .. IV 73*
Underground works in urban areas conference, Paris .. X 3§

Turbines— H
Air injection techniques .. .. II 50†
Balancing runners .. .. VI 52†
Brazil, Itumbriara and Paulo Alfonso turbines ordered .. III 3§
Design and operation of pumps and turbines, international conference, Glasgow .. .. X 49*
Diffusion design .. .. .. XII 50†
Francis turbines, modern trends—de Siervo and de Leva .. VIII 28*
Governing, influence of turbine characteristics on—Brekke .. IX 34*
Governor systems, non-linear, simulation of—Blair and Wozniak .. .. .. IX 23*
Governors, electrical equipment for—Tuszynski .. .. IX 30*
Grand Coulee second unit .. IX 5§
Guide vanes, misaligned, hydraulic torque on—Grein and Bachmann .. .. .. II 37*
Guri contract, Venezuela .. VIII 7§
Guri, Japanese turbines for .. XII 5§
Historical survey of turbine control—Ridqvist .. .. .. IX 27*
Internal losses in turbines .. X 54†
Kaplan blades, corrosion fatigue of .. .. III 53†
Kaplan, our debt to .. .. XI 17
Kaplan turbines, physical dimensions ratios—Jog .. .. III 36*
VIII 9
IX 35
Kaplan, Viktor: his life and work—Häckert .. .. .. XI 39*
Low-head turbine design .. I 5§
II 6§
Manic 3 commissioned .. .. VII 7§
Manic 3, first turbine operational III 7§
Motoring in air .. .. .. III 51†
Pelton wheels for Peruvian Copper .. .. VI 5§
Programmed control of turbines VIII 60†
Scroll cases for Waneta .. .. XII 7§
Snow turbines proposed .. XI 49
Step bearings, reliability of .. IV 77†
Tailwater levels for maximum power—Altieri .. .. IX 36*
Tucurui project, Brazil .. VII 7§
Water qualities, isothermal factor for—Alming and Overli .. VIII 53*

Turkey—
Ayvacik, sub-station equipment VI 5§
News in brief .. .. .. IV 41§

U

Underground structures, assessing problems of—Jaeger .. .. I 29*
Uruguay, Salto Grande loan .. XII 11§

USA—
American Falls, Snake river, reconstruction .. .. .. XII 3§
Arch dam, Nambe Falls, first prestressed in—Legas .. .. II 21*
Auburn dam, gold deposits? .. IV 7§
Bouldin dam failure .. .. VII 3§
Brownlee enlargement .. .. VIII 5§
Brownlee station, further unit .. IV 7§
Calion lock and dam project, Arkansas .. .. .. VIII 5§
Canadian power sales to USA .. IV 7§
Crystal dam, Upper Colorado river .. .. II 27*
Cornell hydro plant redevelopment—Eberhardt .. .. VI 35*
VIII 9§
Daggs dam, Arizona, failure and reconstruction of—Scott .. II 33*
Dam building, trends in—Mermel II 17
Dams in USA .. .. .. VII 40†
Dams, US, safety of .. .. XI 47†
Dickey-Lincoln reviewed .. VI 3§
Dworshak dam design .. .. II 49†
Gallipolis project, Ohio, study .. VII 7§
Gathright dam foundation treatment—Bowman and Anderson VI 38*
Glade Run pumped-storage plant recommended .. .. .. IX 7§
Grand Coulee second unit .. IX 5§
Helms Creek pumped-storage project, California .. .. VIII 7§
Hydro production, annual .. XII 7§
Keowee-Toxaway multi-purpose development .. .. .. IV 77†
Kootenai, Montana, hydro station proposed .. .. .. III 3§
Limiting hydropower consumption .. .. VIII 59†
Manitoba–Nebraska HVDC link studied .. .. XI 5§
Mississippi basin costs .. .. II 3§
Moose Creek dam, Alaska .. VIII 9§
News in brief .. .. .. IV 4§
X 7§
Optima dam, Beaver river .. II 25*
Pennsylvania, tailings dam .. VIII 7§
Pueblo dam .. .. .. III 50†
Randolf project, Virginia .. VII 9§
Rock anchors for Milton Lake dam—Friedrich .. .. II 29*
Santa Anita dam stability study VIII 3§
Santee-Cooper hydroelectric project .. .. VII 9§
Smith Mountain, third unit .. IV 7§
Snake river, Lower, development of .. .. XI 47†
Snake river schemes rejected .. X 7§
Teton dam, Idaho, failure of .. VII 3§
IX 3§
TVA dam controversy .. .. III 3§
USCOLD annual meeting .. III 5§
Vermont not entitled to Niagara power .. .. VI 5§

USSR—
Bratsk station, cavitation damage III 50†
Capacity to increase by 70 TW .. II 3§
Dnieper II plant commissioned .. X 54†
Earth dam with steel core .. VIII 59†
Elektrosila generators, tests on .. X 5§
Five-year plan for hydro projects IV 5§
VII 40†
Leningrad hydro system modernization .. .. III 50†
Power generation fluctuations .. IV 76†
Vilyuisk spillway channel .. V 58†
Water transfers, continental .. VI 52†
Zeya plant commissioned .. III 5§
Zeya plant, dam constructed for II 50†

V

Venezuela—
Caroní river—phase I completed V 3§
Guri project, Japanese tenders for .. .. XII 5§
Guri turbine contract .. .. VIII 7§
News in brief .. .. .. X 7§
Uribante-Caparo project .. IV 3§
Vietnam, Japanese to repair Da Nimh plant .. .. .. IV 5§
IX 7§

W

Wales—
- Dinorwic contracts placed .. I 3§
- Dinorwic, Europe's largest pumped-storage scheme .. III 30*
- News in brief .. .. .. VII 9§
- Ffestiniog stators rewound .. VII 5§ IX 35
- Geology, effect of on design of two Welsh dams—Cochrane and Anderson .. .. .. V 44*
- Lower Lliw reservoir dam contract .. .. X 7§

Water Supply—
- Kielder dam contract .. .. IV 4§
- London, putting water under .. V 54
- Thompson river project, Australia .. .. VIII 9
- Wave action on lakes .. .. V 58†
- Wave forces on structures .. VIII 60†
- Wave power, New Zealand study VIII 58
- Waves, power from .. .. VI 49
- Weather and weather control *see* HRS
- Welding, fusion, of cast iron .. X 59*
- Wind power gives better return .. XI 48
- World Bank, power loans .. .. XII 11§

Y

Yugoslavia—
- Bajina Basta project .. .. VII 42†
- Buk Bijela hydro project .. II 6§
- News in brief .. .. .. III 7§

Comment

- Dam building trends in North America—Mermel .. .. II 17
